"STRONG FAITH & FALSE THEOLOGY"

(REVELATION 2:13-16)

1. We all are guilty of sin! None of us are better than anybody, and we have to realize that we should always be willing to care for each other, not down each other!

2. The Church needs to have real preaching, because we are living with real issues! As we look at real issues, we need real preaching and not preaching that makes us feel good!

3. Even though we mess up the Lord still loves us! God still gives us another chance, even when we fail Him!

4. As a Christian it is important to follow what the Lord says & not what culture says!! If we are followers of Jesus Christ, then our lives should resemble Jesus and not what others say!

5. The Church has to be real and honest when it comes to real issues! We need to stop running from issue, but be real about issues because our world is always affected by the sins of the world!
